INTRODUCTION

Project Management is essential in today's business as its all about getting activities completed efficiently and effectively by and with the support of people. To understand Project Management, its important to have theoretical as well as a functional knowledge of project management, leadership and teamwork.

The Project Management Professional (PMP) is already recognized as the worlds leading project management certification. Now updated, the PMP focuses on the people aspect, project leadership experience and expertise as well as team behaviors as the winning way towards success with the right people needed to work smarter and perform better.

This PMP exam preparation training course for the project management professionals is intended for candidates who plan to

undertake the Project Management Institute (PMI) Project Management Professional (PMP) examination based on the latest Exam Content Outline issued by PMI.

Projects are the way of modern business, with research indicating employers will require almost 2.2 million new project-oriented roles each year through 2027 meaning skilled project managers are in high demand.

The PMP certification is designed by project professionals for project professionals and validates that you are among the best highly skilled in:

People:Emphasising soft skills needed to effectively lead a project team in todays changing world

Process:Reinforces technical aspects of successfully managing

Business Environment:Highlights connections between projects and strategies of the organisations

PMP certification endorses your capabilities around the project leadership skills employers seek, and indeed now includes three key approaches:

- Predictive(Waterfall)
- Agile
- Hybrid

TRAINING OBJECTIVES

On this PMP Exam Preparation Training Course, youll be led by an Authorized Training Partner (ATP), helping you build your knowledge quickly, learning about the 3 domains, people, process, and business environment, and how to:
